

<p align="center"><u>Marking Criteria – GROUP WORK.</u> <u>How Economies Differ?</u></p>	<p align="center"><u>Marks</u></p>
<ul style="list-style-type: none"> ○ Work is divided equally between group members. ○ There is clear evidence that the group members have shared resources ○ Group members actively discussed the economic issues during the time allocated in class ○ The recommendations are thorough and well thought-out ○ The presentation engages the audience extremely effectively. 	<p align="center">8-10</p>
<ul style="list-style-type: none"> ○ Work is divided between group members ○ There is evidence that the group members have shared resources ○ Group members discussed the economic issues during the time allocated in class ○ The recommendations are clear and sensible ○ Presentation engages the audience effectively. 	<p align="center">5-7</p>
<ul style="list-style-type: none"> ○ There is evidence of group work ○ There is some evidence that the group members have shared resources ○ Group members briefly discussed the economic issues during the time allocated in class ○ The recommendations are clear. ○ Presentation shows some engagement of the audience. 	<p align="center">2-4</p>
<ul style="list-style-type: none"> ○ There is little evidence of group work. ○ There is little evidence that the group members have shared resources ○ Group members dedicated some time in class to discussing the solutions to the economic problems of the developing economy ○ The recommendations show little understanding of real-world solutions ○ Presentation rarely (if at all) engages the audience. 	<p align="center">0-1</p>

Good Luck.
Mr. Corbett.
